Washington University
SCHOOL OF MEDICINE

DATABASE ADMINISTRATOR

Washington University School of Medicine, a leader in education and research, has created a new position in the Medicine Department that will be responsible for database application development. To become a member of this team, you must be proficient in database design, development, and programming in a Microsoft SQL Server environment. Experience working with a variety of healthcare financial and clinical sources, and familiarity with reporting packages such as Crystal Reports, Cognos, and Microsoft Reporting Services. Must be proficient in Microsoft Access and have substantial experience with database applications. Visual Basic and/or Visual Basic for Applications.

Qualified candidates must possess a Bachelor's degree in science, mathematics, engineering or business administration with 8 years experience as a system designer, with some strong programming and database systems skills. Experience strongly preferred.

We offer a competitive compensation and fabulous benefits!

Please apply online at: www.wustl.edu/jobs referencing Job #090998
AA/EOE M/F/D/V
